

Internet Modem Streaming Socket Method

CROSS-REFERENCE TO RELATED APPLICATIONS

✓ 5 This application is related to U.S. provisional patent application Serial no. ^{November 10} 60/247,265, filed on ~~October 16~~ ^{November 10}, 2000.

TECHNICAL FIELD

09965952-092701
10 The invention relates generally to Internet communication technology, and more particularly to a system and method that provide streaming socket connection between Internet client and Internet server through an Internet modem.

BACKGROUND OF THE INVENTION

15 A standard modem can be in either one of two modes, command mode or data mode. In a command mode, no data is passed across the modem. The modem operation is controlled using standard modem "AT" or other commands. When the modem is connection to another modem, it goes into
